

If you're looking for a spa cover that's attractive, durable and affordable...

you won't be able to top this!

ASTM Certification

1 Exclusive Vapor Barrier

Industry's thickest 4.0 mil barrier locks in the entire core with our hi-tech sealing equipment. Inhibits vapor transmission and helps to increase the overall life of the cores.

2 Extra Strong Padded Handles

Five layers of reinforced strength at all the critical points to provide long lasting performance.

3 Low Profile Nylon Drain Grommets

Multiple drain holes on underside of cover aid release of trapped water. Non-corrosive, won't scratch the bar top.

4 Marine Grade Vinyl

Our superior 25 oz. top vinyl is the finest quality material for spa covers, and exceeds industry standards for mildew, UV and chlorine resistance. Also has exceptional temperature stability.

5 Child-resistant Cover Locks with Key

New generation hardware offers quick and easy press-style design. Locks with key. Always lock cover straps in place to secure the cover when your spa is not in use.

6 Adjustable Tie-Down Straps

Reinforced, adjustable straps secure to your spa with our child-resistant cover locks. Provide snug-fit for tight seal.

7 Tapered High Density Foam Core

Tapered to allow for efficient rain/snow run off (3-1/2 to 2-1/2"). The standard 1.5 lb. and 2.0 lb. foam cores increase strength and R-factor of the cover.

8 Industrial Grade Double-Ply Poly Laminate

Formulated to protect cores against daily exposures to chemicals and cold. Mildew and UV resistant.

9 Tough 'n Hefty Hinge

Four layers of double-stitched vinyl add extra strength and durability.

10 Aluminum Reinforcement

Maximum strength with the least amount of weight. Strengthens center of cover. Non-corrosive. Non-abrasive to core or vapor seal.

11 Insulating Heat Shoe

Our revolutionary design seals in precious heat at the hinge. Critical to long-term energy efficiency of your spa.

12 Commercial Grade Zipper & Protection Flap

Durable nylon zipper provides long-lasting use. Eases replacement of core if necessary. Flaps protect both the zipper and zipper pull against the outdoor elements.

13 Perimeter Skirt

Helps keep heat in and dirt out while also protecting the bar top. Our 4.0" skirt provides an elegant, superior fit.

14 24 Points Internal Reinforcing

Every stress point is reinforced inside the cover, including: straps, hinge, skirt, handles and corners.

15 System-Ready Brackets

Designed and built to factory specifications to assure strong support and easy installation for Watkins' approved retractable cover systems. Every cover is outfitted with these exclusive, sturdy brackets.

The highest grade of materials are used in building the best quality cover in the industry. For the customer who has purchased the finest spa in the world, top it with the finest factory cover by Watkins Manufacturing. For the peace of mind that your cover will perform safely over time.
